

Kean Louis R. Rosales

Caloocan City • Metro Manila, 1405 • me@keanrosales.com • 09176298175 • keanrosales.com

Education

De La Salle University

Malate, Manila

Bachelor of Science in Computer Science Major in Network and Information Security

Thesis: Exploring Real-Time Automated Threat Detection and Response Against Ransomware Attacks using Software Defined Networking

Experience

Philippine Coding Camp

Freelance Instructor | Remote

- Remote Taught Programming, Web Development, and Robotics; developed curriculum and mentored students.

Freelance Developer and Automation Specialist | Remote

- **Hunter Digital PH** — Built and deployed client websites using React and Node.js.
- **Cariona** (Connecticut, USA) — Automated data processing workflows using Python.

Awards and Competitions

- **CHAMPION** | Agora Voice AI Hackathon 2026
- **3rd Place and Challenge 3 Winner** | GenQ Global Series Hackathon Singapore 2025
- **CHAMPION** | DLSU Hackercup 2025
- **CHAMPION** | DLSU CTF 2025
- **Top 5 Finalist** | Tenext.ai Codebreak 2.0
- **3rd Place** | FlutterFlow Development Group Manila Hackathon
- **4th Place** | SpringBoards hack-it
- **Special Awardee** | KMC Solutions Hackathon
- **1st Place Winner** | Regional Science and Technology Fair
- **1st Place Winner** | Divisional Science and Technology Fair

Technical Projects

KitaKita — Messenger-based POS system for small neighborhood stores. *(DLSU HackerCup Champion)*

Neo — AI-powered voice call center replacing traditional IVR with a natural voice-to-voice agent. *(Agora Hackathon Champion)*

Neosolutions — Full-stack ticketing and support system for Tenext.ai built with React and Node.js. *(Top 5 Finalist)*

Procrash — Gamified to-do mobile app that turns tasks into RPG-style quests. *(3rd Place)*

Talento — Job platform reimagining resumes as short-form video with a TikTok-style HR interface. *(Special Award)*

FIMO — Smart glove translating finger gestures into speech via text-to-speech AI for speech-impaired users. *(1st Place, Regional & Divisional Science Fair)*

Skills & Interests

TDev: Python, C++, C, React, Node.js, HTML/CSS, Git

Security: Kali Linux, Wireshark, Nmap, Digital Forensics, Vulnerability Assessment

Other: Curriculum Development, Technical Mentorship, Hardware & Robotics, Team Leadership

Certifications

[C5W-100 Introduction to Digital Forensics](#) • [CISCO Introduction to Cybersecurity](#) • [Certified Social Engineering Defense Practitioner \(CSEDP\)](#)
