

Kean Louis R. Rosales

Caloocan City • Metro Manila, 1405 • me@keanrosales.com • 09176298175 • keanrosales.com

Education

De La Salle University

Malate, Manila

Bachelor of Science in Computer Science Major in Network and Information Security

Thesis: Exploring Real-Time Automated Threat Detection and Response Against Ransomware Attacks using Software Defined Networking

Experience

Philippine Coding Camp

Freelance Instructor | Remote

- Remote Taught Programming, Web Development, and Robotics; developed curriculum and mentored students.

Freelance Developer and Automation Specialist | Remote

- **Hunter Digital PH** — Built and deployed client websites using React and Node.js.
- **Cariona** (Connecticut, USA) — Automated data processing workflows using Python.

[The LaSallian | Sports Writer](#)

Authored articles on collegiate sports, honing written communication and storytelling skills.

RT&Co. Cybersecurity

Security Engineer Intern | Hybrid

- **Research and Development** — Built multiple internal tools for SOC Analysts and Penetration Testers

Awards and Competitions

Awards

CHAMPION | Agora Voice AI Hackathon 2026

3rd Place & Challenge 3 Winner | GenQ Global Series Hackathon Singapore 2025

CHAMPION | DLSU HackerCup 2025

CHAMPION | DLSU CTF 2025

Top 5 Finalist | Tenext.ai Codebreak 2.0 2025

3rd Place | FlutterFlow Dev Group Manila Hackathon 2025

4th Place | SpringBoards hack-it 2025

Special Awardee | KMC Solutions Hackathon 2024

1st Place | Division and Regional Science and Technology Fair 2019

Projects

Neo — AI-powered voice call center replacing traditional IVR with a natural voice-to-voice agent.

Qantara — A quantum-enhanced portfolio optimization platform that helps investors balance returns, risk, and environmental impact.

KitaKita — Messenger-based POS system for small neighborhood stores.

Neosolutions — Full-stack ticketing and support system for Tenext.ai built with React and Node.js.

Procrash — Mobile RPG quest app built with FlutterFlow.

Kachingko — Mobile finance app using OCR to scan and categorize receipts

Talento — Job platform reimagining resumes as short-form video with a TikTok-style HR interface.

FiMo — Smart glove translating finger gestures into speech via text-to-speech AI for speech-impaired users.

Skills & Interests

Development: Python, C++, C, React, Next.js, Node.js, HTML/CSS, Git, REST APIs, Flask, SQL, MongoDB, Firebase

Security: Kali Linux, Wireshark, Nmap, Metasploit, Digital Forensics, Vulnerability Assessment, CTF, SDN

AI & Automation: OpenAI API, LLM Integration, Voice AI, OCR, Text-to-Speech, Prompt Engineering

Mobile & Hardware: Flutter, FlutterFlow, Sensor Integration, Gesture Recognition, Assistive Technology Design

Other: Curriculum Development, Technical Mentorship, Public Speaking, Written Communication, Team Leadership

Certifications

[C5W-100 Introduction to Digital Forensics](#) • [CISCO Introduction to Cybersecurity](#) • [Certified Social Engineering Defense Practitioner \(CSEDP\)](#)
